Cookies Policy

In relation to Cookies during navigation

A cookie is a small text file sent by a web site and stored in the user's navigator, so that the website can track the browsing activity of the user.
Its main functions are:

- To distinguish users: When a user enters their name and password, they are stored in a cookie so that it is not necessary for you to enter them on each page of the server. However a cookie does not identify people, but rather a combination of a computer-browser and user account.

- To get information about the user's browser habits.

This web uses its own cookies.

Managing cookies

You can allow, block or delete the cookies installed in your computer by adjusting the browsing settings of the navigator on your computer.

If you are not sure what type and version of navigator you use for Internet:

- For Windows: click on **"Help"** from the top menu and select the option **"About"**.

- For Mac: with the navigator window open, click on Apple menu and select **"About"**.

How to manage cookies in Windows

Google Chrome

1. Click on the Chrome menu on the toolbar of the navigator.

2. Select **"Configuration"**.

3. Click on **"Show advanced settings …"**

4. In the **"Privacy"** section, click on **"Contents setting"**

5. In the **"Cookies"** section you can set the following options: Delete cookies, block or allow cookies in a predetermined way, include cookie exceptions for specific websites.

6. For more details please see ayuda de Google Chrome.

Microsoft Internet Explorer 7.0 y 8.0

1. Click the **"Tools"** button and after **"Internet Options"**.

2. Click the **"Privacy"** tab, and then, under settings, move the slider to the middle, so it is neither blocking nor allowing all cookies.

3. Click on **"Sites"**.

4. In the **"Address of website"**, box type the website address and then click **"Block"** or **"Allow"**.

5. As you type, a list of websites that you have already visited will be displayed. If you click an item on the list it will be displayed in the Address of website box.

6. When you have finished, click **"OK"**.

7. Put the slider back in its original position and click **"OK"**.

8. For more information see ayuda de Window.

Mozilla Firefox

1. At the top of the Firefox window, click on Firefox menu and select **"Preferences"**.

2. Select the **"Privacy"** panel.

3. Set **"Firefox will:"** to **"Use custom settings for history"**.

4. Check mark **"Accept cookies"** to enable cookies, and uncheck it to disable them.

5. If you don not want to receive third party cookies uncheck **"Accept third party cookies"**.

6. See ayuda de Mozilla for more information.

Safari

1. Click on **"Safari"** at top of navigator window choose **"Preferences"**.

2. Click on **"Privacy"**.

3. In the **"Block cookies"** section, chose the option you want: **"Advertising and third party"**, **"Always"**, or **"Never"**.

Opera

1. Click on **"Tools"** in the top menu of the navigator and chose **"Settings"**.

2. Next change to the **"Advanced"** tab on the list on the left chose **"Cookies"**.

3. Then click on **"Accept cookies"**.

4. You have three options to chose from: **"Accept cookies"** ","Only accept cookies from site visited" and **"Never accept cookies"**.

Managing cookies on a Mac

Google Chrome

1. Click on the Chrome menu on the browser toolbar.

2. Select **"Settings"**.

3. Click **"Show advanced settings…"**

4. In the **"Privacy"** section, click the **"Content settings"** button.

5. In the **"Cookies"** section, you can change the following cookie settings: Delete cookies, block or allow cookies by default, make exceptions for cookies from specific websites or domains.

Microsoft Internet Explorer

1. Click on **"Explorer"** on the browser toolbar select **"Settings"**.

2. Slide down until you see **"Cookies"** in received Files.

3. Select the **"Never ask"** option.

4. Click **"OK"**.

Mozilla Firefox

1. Click on Firefox menu and select **"Settings"**.

2. Select Privacy panel.

3. Set **"Firefox will:"** to **"Use custom settings for history"**.

4. Check mark **"Accept cookies"** to enable cookies and uncheck to disable them.

5. If you do not want to receive third party cookies uncheck **"Accept third party cookies"**.

Safari

1. Click on **"Safari"** at top of navigator window choose **"Settings"**.

2. Click on **"Privacy"**.

3. In the **"Block cookies"** section, chose the option you want: **"Advertising and third party"**, **"Always"**, or **"Never"**.

Opera

1. Click on **"Tools"** in the top menu of the navigator and chose **"Preferences"**.

2. Next change to the **"Advanced"** tab on the list on the left chose **"Cookies"**.

3. Then click on **"Accept cookies"**.

4. You have three options to chose from: **"Accept cookies"**, "Only accept cookies from site visited" and **"Never accept cookies"**.
